Aims & Objectives

The objective of this program is to introduce and make aware to the students with the new era of cyber world and related data and personal security issues and related effects on the daily life and carrier. This seminar has been organized not only to give them the idea of the modern day cyber space and its vastness of applications but also the misuses and corresponding evils beneath it. We believe after completion of the seminar, students should be able to solve different cyber related issues and make them safe from the harms caused by the unlawful acts.

About ComputronicS

In this era of competition develop a suitable and perfect fitting candidate for the nationwide job demand; it is obvious that we should prepare ourselves as per the age demand and we should develop our education background as our job sector requirements.

That's why we should not only learn and learn; we should have something special, something more to deliver in exchange of job opportunity.

In view of this, it becomes all the more imperative to arrange such activities as hosting the conference, workshops, seminars and provide the platform to the young participants where they can express their innovations, views and gather knowledge with interactions that ultimately get appreciations and inspirations to the followers.

Developing such an institute, our Moto were clear with vision like;

✓ Developing Real Computer Educated Pupils.
✓ Confident about Learning, Doing and indulging thoughts.
✓ Encourage Creativity and overcome the complex of Financial Weakness.
✓ Building a Group of Smart Professionals with Communicative skills.
✓ Arrange the computer facility within the reach of everyone. "Computronics" took an oath to take initiative and effort to develop the trainee into "competitive candidate" for job sector but not give them the vague assurance of "Placement". We can help them to build them as a suitable competitor and assure them about the skill they will get from our premises.
✓ Developing such an institute, we are clear with visions like; Developing "Real Computer Educated Pupils" with Confidence of creativity by Learning, Doing and Indulging Thoughts.
✓ Encourage Creativity and overcome the complex

of Financial Weakness. Building a Group of Smart Professionals with Communicative skills. Arrange the computer facility within the reach of everyone .

The institute is not only a budding ground for the students. But, it aptly supports its faculty by creating a suave working atmosphere and provides them with liberty to shape the young minds. It touches the mile stone of 12-years of its journey on 2020 by conducting different activities along with all the regular activities. Academic and social activities both approaches the institute goes beyond mere professionalism and serves its students to help them grow and become trained and responsible citizens. It rightly organizes talk shows, seminars and lectures on various topics by experts from various fields and therefore exposes the students to myriad experiences and makes the process of learning, interesting and enjoyable.

We, at the institute, promise to work hard and create more opportunities for our students so as to we can contribute our bit in building a better and knowledgeable society.

Activities of ComputronicS

Computronics started its journey with a Moto of believing on the capability beneath the lower middleclass pupil those are capable enough to flourish themselves if they got the proper nourishment within their reach and confidence. Computronics, A gateway to Computer World has been established in the year 2008, with a couple of highly qualified, experienced and motivated Faculty members and laboratory instructors. Those peoples were also have a dream in their mind to not only develop a group of skilled pupil but also with the help of modern technology and support it touches the mile stone of 12-years of its journey on 2020 by celebrating as a duodenal-journey (Ceelb'12th) along with regular activities like PSDP (Presentation and Skill Development Program, 6th consecutive years), SRC(Story Reading Competition), NRC (News Reading Competition), Bi Annual Convocation (BEACON), Carrier guidance seminar/ talks, guest lectures by eminent personalities from several part of the society as psychologist , author, educationalist, software professionals etc. Social activities, activities the institute goes beyond mere professionalism and

serves its students to help them grow and become trained and responsible citizens.
